

# Hope Moto V2 Brakes

Here at the office it seems we've been getting a new disk brake to test just about every month and, so far, each one has been successively better than the previous. Well, this month Hope sent us their new Moto V2 brake. Guess what? We've once again found a new pinnacle in braking performance.

## **What stands out?**

Changes to the rotor are the biggest performance upgrade. Hope uses a ventilation technology never before seen in mountain bike brakes on this brake set. A three-ply steel vented rotor is used; it
